**Additional Student Learning Outcomes for Social Work Majors**

The Council on Social Work Education requires that accredited social work programs follow the CSWE Educational Policy and Standards that comprises nine competencies as follows:

1. Demonstrate Ethical and Professional Behavior
2. Engage Diversity and Difference in Practice
3. Advance Human Rights and Social, Economic, and Environmental Justice
4. Engage in Practice-informed Research and Research-informed Practice
5. Engage in Policy Practice

7. Assess Individuals, Families, Groups, Organizations, and Communities
8. Intervene with Individuals, Families, Groups, Organizations, and Communities
9. Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Specifically, while this course addresses competencies 1, 2, 3, and 6, the main foci are competencies 2 and 3: Engage Diversity and Difference in Practice; and Advance Human Rights and Social, Economic, and Environmental Justice.

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power. Social workers:

- Apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels;
- Present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- Apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Social workers understand that every person regardless of position in society has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive structural barriers to ensure that social goods, rights, and responsibilities are distributed equitably and that civil, political, environmental, economic, social, and cultural human rights are protected. Social workers:

- Apply their understanding of social, economic, and environmental justice to advocate for human rights at the
individual and system levels; and
• Engage in practices that advance social, economic, and environmental justice.

G. Attendance

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients “begin attendance in a course.” UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or engagement online via Canvas. This data is reported to the Department of Education for federal financial aid recipients.

Information specific to modality and meeting times for this course are provided in the section below.

It is the student’s responsibility, whether present or absent, to keep abreast of assignments. However, there are specific due dates for each assignment posted in the schedule on this syllabus. Students are expected to adhere to the due dates and complete the weekly assignments each week. Students are expected to complete all of the assignments for this course to receive a passing grade. Assignments not turned in will be recorded as “0” in grade center and may jeopardize the opportunity to receive a passing grade for the semester.

(Online Synchronous: TH 9am-11:50 am)

H. Grading

All papers must be grammatically correct using APA style. Papers with many grammatical errors and misspellings will not receive a satisfactory grade. If any assistance on this is needed email course faculty for

Each student’s feedback via the SFS database is aggregated with that of other students enrolled in the course. Students’ anonymity will be protected to the extent that the law allows. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit http://www.uta.edu/sfs.
