**F. Descriptions of Major Assignments and Examinations**

Continuing the course after distribution and review of the syllabus constitutes informed consent to participate in the course, per syllabus criteria. In addition to assignments listed below, each student is expected to read 100% of the assigned reading material and to come to each class (in person or online)

Active participation in the discussion boards is critical to ensure student learning. Students in this course are required to post an initial response to a prompt by Friday and a response to a peer by Sunday.

Each student will also need to monitor their post in case a peer asks an additional question. The assessment criteria for the course discussion boards includes evaluation of the quality and quantity of your participation in the discussion boards.

Posts, responses, and questions should be thoughtful and thorough. Students who post “I agree” or “I thought the same thing” will not get credit for the post. If you support those statements with examples, experience, or other references, then you will get credit for the discussion board.

Ensure your post has appropriate grammar and spelling, as well as APA if applicable. Your post and/or your question should address the topic for the discussion board.

You are encouraged to revisit the discussion board and respond to what your peers have posted to your response.

Case Study or Topic Presentation

**Points: 20**
**Due Date: During Modules: 3, 4, and 5**

**Case Study**

**Addresses the Competencies 1, 2, 4, 6, 7, 8, 9**

**Points: 20**
**Due Date: During Modules: 3, 4, and 5**

*Please note students can choose to complete this assignment individually, with a partner, or in a group of up to 3 people. A discussion board title “Partner Presentations” will be available. Students who want to work with a partner may post in there and then determine how they want to communicate once they have identified a partner. Both students will be responsible for submitting the assignment under the "Assignments in the online course."

The purpose of this assignment is to develop presentation skills and familiarize students with other case situations; therefore, students will record a 15-minute visual presentation (PowerPoint, Prezi, Google, etc.) on a case of child maltreatment. The presentation can be an actual case or one from a documented source. Students may include 1 short video that is no longer than 2 minutes in their presentation. Students will post their presentation to the discussion board for that week by Sunday at 11:59pm. For example, if a student is discussing physical abuse it will need to be posted to the corresponding discussion board title “Physical Abuse Presentations”.

Students will also need to submit their presentation under “Assignments” for the instructor to grade. Student’s case study presentation will include the following:

**Reaction and Reflection:**

Personal reaction: describe your personal reactions to the case (were there any unexpected developments that impacted your approach or impacted your reactions?)
*If you choose to do a case study with a partner or in a group, all individuals will need to include their personal reaction.

Reflection: In reflecting on the case, is there anything you would do differently if faced with a similar case in the future?)

Students will need to include a reference page in the presentations. If students utilize a direct quote it needs to be cited in proper APA format. The presentations should be your own, in your own words. You may present information from a source and elaborate on it in the presentation.

*See grading rubric online for additional grading criteria.*

**Topic Presentation:**

*Addresses the Competencies 1, 2, 3, 4, 5, 8, 9*
*Points: 20*

*Please note students can choose to complete this assignment individually, with a partner, or in a group of up to 3 people. A discussion board title “Partner Presentations” will be available. Students who want to work with a partner may post in there and then determine how they want to communicate once they have identified a partner. Both students will be responsible for submitting the assignment under the "Assignments in the online course."

If you are not currently working in an agency or have past experience with a child maltreatment case, students have the option to complete a presentation on one of the topics in the course (physical abuse, sexual abuse, neglect (physical or medical), or emotional/psychological maltreatment. If students want to focus on another topic related to abuse, they must contact the instructor for approval prior to submitting the topic presentation.

Students will record a 15-minute visual presentation (PowerPoint, Prezi, Google, etc.) on a topic from the course. For example, if a student is discussing physical abuse it will need to be posted to the corresponding discussion board title “Physical Abuse Presentations”. Students will also need to submit their presentation under “Assignments” for the instructor to grade.

The topic presentation should include:

**Overview**
Clearly state the magnitude of the problem and explain specifically why and how this problem is important

**Impact of the issue**
Establish how widespread and serious the issue is by identifying the size of the population affected (within
a designated geographic area - county, state or nationally). Utilize statistics or information from reports.

**Programs and Policies**
What programs and policies exist to address this issue/problem? Include both locally (county or state) and nationally? Include links or website information to the programs in your presentation.

All papers must follow APA guidelines. At a minimum this means:

Points will be deducted if you do not follow these See the following website for additional help with APA format: http://owl.english.purdue.edu/owl/resource/560/01/

Written work must be clear, concise, and grammatically correct. Deficiencies in areas such as spelling, punctuation, sentence structure, and incoherent organization will result in lower grades. As stated, plagiarism (using someone else’s words, thoughts, or ideas and claiming them as your own – e., using direct sentences written by others) will result in a failing grade for the course.

Please use formal and professional language when completing papers and assignments for this course (i.e., Discussion Boards, Biopsychosocial Assessment). This includes refraining from the use of contractions (e.g., can’t, don’t, won’t.).

**Unless otherwise indicated by the instructor, all designated assignments must be submitted through the online learning management system.

### G. Attendance

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or engagement online via Canvas. This data is reported to the Department of Education for federal financial aid recipients.

Information specific to modality and meeting times for this course are provided in the section below.

As the instructor of this section, it is expected that you engage in each module. Missed online activities will adversely affect your grade.

### H. Grading

*Note: Assignments and exams are not accepted past due dates unless arrangements are made with the instructor PRIOR to the due date. Late assignments may be accepted under extreme circumstances and at the discretion of the instructor and may result in a deduction of 5 points per day that the assignment is late (2 days late=loss of 10 points).

All assignments due by 11:59p on the day of the due date. All papers must be grammatically correct using APA style. Papers with many grammatical errors and misspellings will not receive a satisfactory grade. Expect the instructor to grade assignments within two weeks of the due date. Please do not ask when grades will be assigned before the two-week period. If a student has a question regarding his/her grade check the gradebook on Canvas. Federal law and FERPA ensure a student’s right to privacy and limits the instructor’s ability to discuss grades over the internet or via phone. Do not email about your grades from an email account other than Mav Mail. If you would like to discuss your grade, an appointment will need to be made with the professor.
Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels; see "Student Support Services," below.

Suggestions for earning a good grade:
The professor welcomes questions regarding course materials. Here is how to get the most out of asking questions:
First-Read and view the assignments and the syllabus
Second-Ask your question regarding the course materials through an e-mail to the professor or the “Course Q and A” Discussion Board. Please keep in mind that asking a question regarding the course materials before you turn in your assignment is much better than asking your question about your grade.
The instructor reserves the right to give a grade of “F” for the course as whole to any student found guilty of plagiarism of any assignment by the Office of Student Conduct. Please see “Plagiarism Information” online for additional resources.

Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback via the SFS database is aggregated with that of other students enrolled in the course. Students’ anonymity will be protected to the extent that the law allows. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit [http://www.uta.edu/sfs](http://www.uta.edu/sfs).
