The last day to drop classes is April 3, 2019 at 4pm.

Attendance Policy
At The University of Texas at Arlington, taking attendance is not required. As the instructor of this online course section, I will not take attendance, but regular online participation through Canvas is expected of all students.

Canvas Required
Only assignments submitted through Canvas will be reviewed and accepted for a grade, regardless of the reason. Assignments that are submitted through email will not be reviewed for feedback nor graded. They will be assigned a grade of zero. No exceptions will be made.

Technical Problems
Because technology is vulnerable to experiencing difficulties you should not wait until the last minute to submit an assignment (case study or discussion board) or test. If you experience technical difficulties contact Canvas Support to help resolve the issue. They are open 24 hours a day. All technical issues must be resolved prior to an assignment or test due date and time. Assignments or tests which are submitted late secondary to technical issues may not be accepted and/or are subject to a point deduction up to and including a zero.

Central Standard Time Zone
The University of Texas at Arlington is located in the central standard time zone. As such all due dates and times are based on the central standard time zone. All students regardless of their physical location are required to adhere to the central standard time zone due dates and times. It is the student’s responsibility to know, in which time zone they are located, how it differs from the CST zone, and to ensure they follow the due dates and times accordingly. Late assignments or tests will not be accepted if the student encounters difficulties due to time zone discrepancies.

Tests
- There are 2 Tests this semester. Test 1 should be completed after Modules 1-3; Test 2 should be completed after Modules 5 & 6.
- The Test consists of 50 Multiple Choice/Answer Questions. You will have 2 hours to complete the Test (200 points possible for each test)
Quizzes
- There are 16 quizzes for this course. Each quiz consists of 10 Multiple Choice or T/F questions. You will have 30 minutes to complete each quiz.

Honor Code
- The Honor Code applies for all quizzes, tests & discussion posts....meaning do your own work. (No texting, emailing, calling, copying from the Internet, or any assistance from others).

Discussions
- You will need to participate in 6 discussions (1 Introduction discussion and 5 related to our Modules. Respond once to my post and at least twice to your classmates, for the 100 possible discussion points. There are 6 discussions=600 points.
- The comments you make and any material you may add to the discussion forum need to be original not taken from the internet without being cited. I check submissions via Safe Assign.
- To receive the full possible points for each discussion, you will need to answer the discussion question(s) that I post with a minimum of 300 words in your initial post, and then respond to at least 2 of your classmate’s posts (100+ words to each), using their names so we know who you are addressing. Just completing the above requirements does not ensure full points. That will be determined by content, adding something new to the discussion versus rephrasing other’s comments.
- I will be grading your discussion according to the Discussion Grading Rubric.

Textbook
- You will need to have the current textbook. An earlier version will not be adequate and may result in many wrong answers on the quizzes and tests.

Grading Policy
Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.

Course Grading Scale
