Texts and Materials:

No textbook is required for this course. Optional readings and materials may be posted on Canvas.

Time and Place of Class Meetings:

We will not meet regularly for this class. Instead, students' class time will be spent at the location of their internship. All students' assignments will be submitted via Canvas by the dates specified in the course schedule. Students are encouraged to contact the instructor regarding any issues, problems, or triumphs that they wish to discuss, but this is not strictly required.

Course Description:

The internship class (paid or unpaid) aims to deliver an approved professional experience created in relationship to the intern's interests and academic goals. The course is designed to pull together your academic learning and personal experience in a professional environment, in preparation for starting or advancing your career. While the course will present different experiences for every student enrolled, the goal is to provide professional development and job-related skills under supervision in an appropriate educational setting.

Student Learning Outcomes:

- Through a pre-reflection on their academic career, students will identify current transferable skills, their application, and areas of opportunity to grow into their field of interest.
- Students will think critically and report their experiences on weekly discussions to evaluate what they've learned, share best practices and network with each other.
- Students will learn strategies to create a professional profile that reflects their education, work history, accomplishments, goals and aptitudes.
- Students will gain practical experience in their field of interest and develop applicable skills for graduate school and career focused positions. Additionally, they will acquire self-confidence, career identity and a sense of civic responsibility.
- Through a post-reflection, students will critically evaluate how to apply strengths learned in their academic program and internship and identify transferable competencies to meet possible career goals.

LING 4393 Linguistics Internship – Spring 2020

Attendance: At the University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section students are not expected to meet in a traditional classroom but instead are required to be actively engaged in the class activities, internship commitments and to participate in relevant online discussions on Canvas.

Other Requirements: In addition to completing all of the required volunteer hours, students are expected to attend workshops, presentations and fairs as required by the syllabus. If you have committed to a specific organization, it is your responsibility to make arrangements to notify the organization should you not be able to meet your agreed-upon appointments. Remember that you are representing UTA in our community. No-showing not only reflects poorly on you, but also on our department and university as a whole.

Grading: Students must complete all internship hours, assignments and discussion postings/replies by the due dates. All due dates for the assignments and discussion postings/replies are listed in the course schedule. Late work and work that must be revised will not be accepted. You are responsible for your technology/internet working to ensure work is completed by the deadlines.

Below you will find the weighted percentage of each of the course components. Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.

Your course grade will be determined as follows: A = 90% or above; B = 80 - 89%; C = 70 - 79%; D = 60 - 69%; F = below 60%.

Description of Assignments:

60 Hour minimum of Volunteer/Intern work

This course requires a minimum of 60 hours in a semester but you are welcome to earn more hours if possible. It is the responsibility of the student to create a schedule that allows for the successful completion of this class in balance with other responsibilities. Candidates should try to maximize their learning experience in preparation for advancing their career. Weekly logs created by the student and verified by their supervisor will be required and must be submitted to the instructor.

Online Discussion/Replies

The discussion component of the course is the primary place for demonstrating meaningful reflection as you address the learning objectives of the course, resolve problems and challenges, document observations and feelings related to your experience and share best practices with your peers. A total of 10 online discussions and replies are required and these will be a combination of original post observations, trainings, presentations, creating résumés and cover/interest letters. Besides your
