Description: This advanced course is designed to allow recording students to explore and refine their audio recording skills in an independent manner, as well as give as much hands-on studio recording experience possible. Much of the class will be in a workshop style where students present their finished or unfinished work for the class, who will in turn give constructive feedback and guidance. Other topics, such as live sound and in-class recording, may be included.

Office Hours: Office hours are available by appointment (contact me via email).

Attendance: Attendance will be taken regularly throughout the semester. At The University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I have established the following attendance policy:

- Students are allowed four unexcused absences.
- **Any more than two unexcused absences will bring down your entire grade by 5%.** For example, three absences will cause a 94% to become an 89%, four will cause a 94% to become an 84%, etc.
- Being tardy twice equals one absence.
- In order for an absence to be excused, the instructor must receive some sort of signed document in writing—e.g. a doctor's note excusing an illness, a letter from a pastor/priest/rabbi or family member excusing absence due to a death in the family, etc.
- Leaving class early will count as a tardy. If you must leave class early, please let me know in advance so I do not mark you absent.
- Coming to class unprepared (i.e. without textbooks and not able to participate) will be regarded as an absence.

Required Materials: *Modern Recording Techniques* by Huber, David Miles and Runstein, Robert (0240821572), Eighth Edition (Paperback - 2013). Students will also be given copies of Geoff Martin's pdf/on-line book *Introduction to Sound Recording* (2011 edition); (<http://www.tonmeister.ca/main/textbook/index.html>).

You will be required to subscribe to an account at **Lynda.com**. This is a video tutorial training site that will help supplement the material we cover in class. Students are **required** to subscribe the first week of class and will be monitored by me throughout the semester. Lynda is currently free for students and faculty.

Assignments: Audio projects will be assigned throughout the semester and will culminate in one major final recording assignment due towards the end of the semester that will be completed individually. Other minor audio assignments will also be given (e.g. sampling, compression, etc.).

Students will also be assigned to *Recording Ensembles* that will record, mix, and master each other's performances in class throughout the semester.

Grading:	Final Project (3 songs)	50%
	Recording Ensemble	15%
	Lynda Videos	05%
	Assistant Engineer from RT I	10%
	Other audio projects	15%
	Professionalism	05%

Grading Scale: A: 90-100% B: 80-89% C: 70-79% D: 60-69% F: 0-59%.

Makeup Policy: Late assignments *are not* accepted. If you have extenuating circumstances you must talk to me before the due date and I must approve of a change *in writing*. You will not be allowed to makeup a missed exam unless you arrange an alternative solution *in writing* with me before the exam.

Student Learning Outcomes: After successfully completing this course, students will:

- Have spent significant time making recordings in Studio 301
- Have a better understanding of which direction you want your career to go after college
- Articulate and analyze the quality of both professional and student recordings
- Understand and discuss current trends, research, and debates in the world of audio production

Expectations for Out-of-Class Study: Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional 9 hours per week of their own time in course-related activities, including reading required materials, completing assignments, preparing for exams, etc.

Drop Policy: Refer to the UT Arlington drop policy for drop deadlines and further information.

Studio Security: It is EXTREMELY important that recording students use proper alarm protocol. After entering the room by swiping your ID and entering your pin, *immediately* punch in the alarm code—any sort of beeping should cease at that point. When exiting, please *punch in the same code and make sure the door is locked*. If something goes wrong and you cannot cancel the alarm, please call the campus police department at (817) 272-3381. Recordings students should not access the room until I put them on the authorized list (I will let you know when that occurs).

Students are 100% financially responsible for the care and maintenance of the checked-out equipment. Your maturity and good conduct will keep this program alive. If something goes wrong and you set off the alarm, please call the campus police department at (817) 272-3381.

Please leave the studio cleaner than you found it and please leave the room set up and lecture-ready (screen down, room open, piano pushed to the side, etc.)

Communication: I will communicate important information with you via email using the email address you have set up in the MyMav system. You will be held responsible for the information sent there, so ensure you check this email address DAILY. If you need assistance with MyMav, you may contact the Office of Information Technology (<http://oit.uta.edu>).

As a faculty member, I am required by law to provide "**reasonable accommodation**" to students with disabilities, so as not to discriminate on the basis of that disability. Student responsibility primarily rests with **informing faculty at the beginning of the semester and in providing authorized documentation through designated administrative channels**. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

I will follow the highest standards of integrity and uphold the spirit of the Honor Code.* Instructors may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System Regents' Rule 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

DROP POLICY: Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. Students will not be automatically dropped for non-attendance. Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/ses/fao>).

STUDENT FEEDBACK SURVEY: At the end of each term, students enrolled in classes categorized as lecture, seminar, or laboratory shall be directed to complete a Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>.

ELECTRONIC COMMUNICATION: UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox DAILY. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

FINAL REVIEW WEEK: A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week unless specified in the class syllabus. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled.
