Students who cannot complete the quiz by the designated day and time will be required to notify their Academic Coach on or before the quiz deadline. Any makeup quiz or retaking of the quiz will be at the discretion of the Course Faculty.

**Grade Grievances:**
Any appeal of a grade in this course must follow the procedures as published in the College of Nursing and Health Innovation Undergraduate Student Handbook (https://www.uta.edu/conhi/students/policy/index.php).

First the student must make a serious effort to resolve the matter with the Faculty of the course who has the primary responsibility for assigning grades. If the issue is not resolved, then the student contacts the Lead Teacher (defined in the course syllabus) with supporting evidence for the review of the issue.

Appeals of the official grade assigned to a student for a course will not, therefore, be considered at levels above the faculty unless a student offers evidence of:

- Differential treatment – examples might be providing benefits such as extra time for assignments to some but not all students in the class; excluding some students from attendance or other course requirements, OR
- Procedural irregularities – examples might be adding a new requirement that was not listed in the class syllabus; using criteria for grades not made available to the student ahead of time.

If there is concern that differential treatment and/or procedural irregularities exist (as defined above), the student then makes an appointment with the Associate Chair for Undergraduate to discuss filing a formal grievance. The link for that process for the College of Nursing and Health Innovations is provided again here for easy access in the Undergraduate Student Handbook (https://www.uta.edu/conhi/students/policy/index.php).

More information about the university’s grade grievance policies can be found in the Undergraduate Grading Policies section of the catalog (https://catalog.uta.edu/academicregulations/grades/#undergraduatetext). Information regarding grievances for matters other than grades is available in the Student Rights section of the catalog (https://catalog.uta.edu/academicregulations/security/).

UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. Electronic Communication Policy:

The University of Texas at Arlington has adopted the University “MavMail” address as the sole official means of communication with students. MavMail is used to remind students of important deadlines, advertise events and activities, and permit the University to conduct official transactions exclusively by electronic means. For example, important information concerning registration, financial aid, payment of bills, and graduation are now sent to students through the MavMail system. All students are assigned a MavMail account. Students are responsible for checking their MavMail regularly. Information about activating and using MavMail is available at http://www.uta.edu/oit/email/. There is no additional charge to students for using this account, and it remains active even after they graduate from UT Arlington.

To obtain your NetID or for logon assistance, visit https://webapps.uta.edu/oit/selfservice/. If you are unable to resolve your issue from the Self-Service website, contact the Helpdesk at http://www.uta.edu/oit/cs/helpdesk/

Student Feedback Survey:

At the end of each term, students enrolled in classes categorized as lecture, seminar, or laboratory shall be directed to complete a Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term.

Student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit http://www.uta.edu/sfs.
